**Dear Director,**

Greetings from Rwanda.

**Re: The Partneship between your school Goeuschule grunschule and The Small Angels School**

I am the School Manager and Founder, I take this opportunity to thank you for being interested in our school, the team and I really appreciate this occasion. Our school was founded in 2016, when there was the most need, as the kids could go to the nearest school in two kilometers. The school was founded to reduce the long distance made by students and to promote inclusive education which considers the vulnerable students and children with disability, the equity of boys and girls.

We hope to learn more from each other by sharing experience in order to offer the best quality in education. The physical capacity of the school is 125 kids. Now we have 60 kids only due to covid19 pandemic as some parents lost their jobs and some business collapsed, the school is able to support 60 kids in waiting the economic recovery.

At our school we have kids from 1 age to 10 years old; we offer the preschool level , nursery level and primary level to Grade 2. We have many plans and projects for the future to grow the school, we can share them in the next time. Some photos are attached.

We are looking forward to hear from you soon.

**Sincerely.**

**School Manager**

**Twahirwa Mukerajuru Marie Evelyne**
